GitHub: https://github.com/Amaya-python

Professional Summary

Results-driven **Python Full Stack Developer** with hands-on experience in designing, developing, testing, and deploying secure, scalable, and responsive web applications. Proficient in **Python, Django, Flask, React.js, REST APIs, and database management (MySQL, MongoDB)**. Experienced in **JWT authentication, API integration, automation scripting, and UI/UX optimization**. Proven ability to independently manage full-stack development projects and deliver high-quality solutions. Currently enhancing expertise through a **MERN Stack Developer internship**.

Technical Skills

- **Programming Languages:** Python, JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries:** Django, Flask, React.js, Bootstrap
- **Databases:** MySQL, MongoDB
- **Web Technologies:** REST APIs, JWT Authentication
- **Tools & Version Control:** Git, GitHub
- **Core Competencies:** Full Stack Development, Responsive Web Design, UI/UX Development, Component-Based Architecture

Professional Experience

Python Full Stack Developer Junior Trainer *Present*
Techolas Technologies ,Kozhikode , India

- Underwent hands-on training in Python Full Stack Development with focus on Django-based web applications
- Developed backend modules using Python and Django, including views, URL routing, templates, and basic CRUD operations
- Built frontend interfaces using HTML, CSS, and JavaScript; integrated frontend logic with backend services
- Worked with relational databases (MySQL/PostgreSQL) for schema design and basic query optimization
- Assisted in explaining Python fundamentals, Django project structure, and web development concepts to trainees
- Supported learners by debugging code issues and clarifying application logic during practice sessions
- Used Git and GitHub for version control and collaborative development

Python Full Stack Developer Intern *Dec 2024 – Jun 2025*
SMECLabs, Kochi, India

- Designed, developed, and tested **3 full-stack web applications** using Python, Django, React.js, HTML, CSS, and Bootstrap within defined timelines.
- Developed and integrated **RESTful APIs** with **JWT-based authentication** to ensure secure frontend-backend communication.
- Automated repetitive workflows using **Python scripts**, improving operational efficiency and reducing manual effort by approximately **30%**.
- Managed and optimized **MySQL and MongoDB databases** for performance, scalability, and data integrity.
- Implemented responsive UI/UX designs and followed best coding practices to improve maintainability and scalability.

MERN Stack Developer Intern *Present*
All Pro Tech Labs, Malappuram, India

- Currently developing full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**.
- Working on frontend-backend integration, REST API consumption, and responsive user interface development.
- Enhancing practical knowledge of modern JavaScript frameworks and full-stack development workflows.

Projects

CRYPQRSHARE – Secure Message Sharing Web Application

- Developed a secure web application using **Django, MySQL, HTML, and CSS** for encrypted message sharing via QR codes.
- Implemented **RSA encryption and image steganography** with a three-layer security architecture.
- Ensured secure API integration and responsive frontend design.

MR. PERFECT – Video Conferencing Web Application

- Built a full-stack application using **Flask, MySQL, HTML, and CSS** supporting screen sharing and instant messaging.
- Designed scalable architecture for real-time communication and performance optimization.

Flight Data Application – React Frontend

- Developed a React.js application to display, sort, and filter flight data.
- Implemented advanced sorting and filtering based on price, duration, and departure/arrival times.

Education

Master of Science (MSc) – Computer Science 2022 – 2024
University of Calicut, Kozhikode, India

Bachelor of Computer Applications (BCA) 2019 – 2022
University of Calicut, Kozhikode, India
